

Tax Statements

Creating a stress-free tax season for employers and employees

Year-end season is the busiest time of the year for payroll teams. It's characterized by pressure-filled deadlines, surging requests by employees and the need to get it right. When it comes to delivering annual tax information to employees, accuracy and timeliness are of the utmost importance.

As a pioneer in electronic delivery of W-2 statements, Experian Employer Services provides complete, turnkey fulfillment of year-end tax statements to employees ... both current and former. By helping employers prepare and submit files, delivering electronic and print tax statements to employees, and managing any re-issues and corrections, we provide a stress-free experience. With our online portal, current and former employees have easy access to their tax statements while administrators gain full visibility to check on the status of tax statements and coordinate any necessary changes quickly. This allows employers to alleviate the administrative burden oftentimes associated with year-end season and instead focus on the demands of your organization.

How It Works

Delivery

Timely electronic or postal delivery of tax statements direct to employee or consolidated locations

Online Portal

Access for current and former employees to historical tax statements

Comprehensive

Full suite of tax statements available

Visibility

Administrator tools to generate reports and address employee-specific issues

Yes, we can do that:

- Ensure full compliance with all tax reporting guidelines
- Flexibility to meet your employees' tax reporting needs with electronic or paper statements
- Real-time employee access to all year-end tax statements from integrated online portal
- Management of re-issues and corrections with ease
- Scalability to meet your changing organizational needs

Efficient, Timely, Compliant

An essential component of tax regulations require employers to provide statements to current and former employees in a deadline-driven manner. For most organizations, the complexity associated with organizing, producing and distributing tax statements is beyond what can be managed internally. Experian Employer Services can help. As a leader in employer compliance management, we leverage our proven experience managing year-end tax statements to meet your fulfillment needs and minimize compliance risk. Our fully integrated, secure and user-friendly employee self-service portal enables your employees, current and former, to access electronic tax statements—reducing your fulfillment costs.

10 + million tax statements delivered during in 2022
