

Assessed Technical Providers List

Below is a list of Technical Providers (TP) that have undergone an Experian Third Party Security assessment for a specific business opportunity, system or environment. Please note that this list only reflects Technical Provider's completion of an Experian Third Party Security assessment and does not speak to the Technical Provider status in meeting Experian legal / contractual requirements.

Experian Third Party Security assessments are required when your company or your end users intend to use a TP's architecture to receive, store, process and / or deliver Experian information. An assessment is also required for any entity that takes receipt of Experian information on behalf of your company (e.g. Agent of End- User). If you or your end users would like to use a Technical Provider, or if you have any questions, please contact your Experian representative as each opportunity must be reviewed on a case-by-case basis.

Company Name	URL
3530 Technologies LLC	www.3530tech.com
