

### Technical Providers (TP) List

Below is a list of Technical Providers that have gone through Experian security assessment, E13PA (Experian Independent 3rd Party Assessment). Please note that this list only reflects Technical Provider compliance status in meeting Experian security requirements and **does not speak to the Technical Provider status in meeting Experian legal/contractual requirements.**

E13PA certification is required when your company or your end users intends to use a TP vendor web architecture to receive, store, process and or deliver Experian information via the internet. Certification is also required for any entity that takes receipt of Experian information on behalf of your company (e.g. Agent of End-User). If you or your end users would like to use a Technical Provider that is not currently listed, or if you have any questions, please contact the E13PA team mailbox at E13PA@Experian.com
