

Profile Summary

For quick credit history analysis

Profile Summary from Experian makes it easy to analyze the most significant factors in a consumer's credit history. This effective decision support tool contains 17 key calculations from the Credit Profile Report, giving you a true picture of a consumer's debt, monthly obligations and payment history.

Profile Summary streamlines the analysis process by:

- Eliminating the need to spend time reviewing the entire Credit Profile Report
- Performing the calculations for you

Profile Summary helps you reduce future losses by indicating potential exposure to risk. Information contained in the Profile Summary includes:

- Percent of revolving credit available
- Date open of oldest trade

Your inquiry activates a search of Experian's vast database, containing files on nearly 205 million credit-active consumers nationwide. See the inside of this brochure for a sample of a Credit Profile Report from Experian using Profile Summary.

To activate Profile Summary on a Credit Profile Report, enter the "PSUM" keyword at the end of your inquiry. You also have the option to request that Profile Summary be automatically activated on all inquiries without the use of the "PSUM" keyword.
