

## United Kingdom Profile

Most predictive score and comprehensive business information on UK companies

Get instant access to the most up-to-date and accurate business information on companies in the United Kingdom including England, Scotland, Wales and Northern Ireland.

Delivered in real time via the Internet, the United Kingdom Profile provides credit information on nearly 4 million businesses. Our detailed report contains the most comprehensive business information from Experian UK, the leading provider of business information in the United Kingdom.

### Quickly spot potential business risk

Current, accurate and objective data is necessary to get a complete picture of the financial health of prospective and current customers. The United Kingdom Profile provides an easy-to-read Executive Summary that gives you a quick overview of a business's credit behavior.

### Commercial Delphi score

Experian's Commercial Delphi score clearly outperforms other ratings in its ability to predict business closures and failure of newer companies. Commercial Delphi has been independently proven as the most predictive risk score for Limited companies in the UK market.

### Valuable payment insight

The United Kingdom Profile provides details on current payment behavior and historical payment trends for both company and industry. No other company provides more in-depth payment information on UK businesses.

### Complete financial data

Every United Kingdom Profile contains extensive financial information. Each report includes a balance sheet and profit and loss statement with up to four years of data. Reports also include up to four years of company and industry financial ratios.
