

U.S. Business Database

The most complete and accurate source of business information

Information is available for more than 14 million U.S. businesses. The database contains more than 50 fields of information. Virtually every business, no matter how small, large or newly established, is included in the database.

Selections

SIC or NAICS code — Select by our proprietary version of the government's Standard Industrial Classification coding system.

Number of employees or estimated sales volume — Select by actual employee size or location sales volume.

Geographic area — Select by state, county, ZIP Code™ or area code.

Professional specialty — Select by physicians, veterinarians, certified public accountants and others

Database elements
