

Enhanced International Developed Profiles

Powerful tools to support international acquisition and portfolio management

Experian's comprehensive international reports and profiles help you acquire international customers and vendors more efficiently and with greater confidence.

We provide timely global information on a wide range of businesses in more than 200 countries, dependencies and territories. This information is supported through Experian-owned assets and industry-leading partnerships that serve as a consistent source of high-quality international data.

Experian® currently offers real-time reports in Western European countries, the United Kingdom, Brazil, Canada and Singapore.

For the rest of the world, we offer freshly developed profiles.

Small report:

- Express delivery within 24 hours in 62 countries.
- Normal delivery within one to three days.

Extended report:

- Express delivery within one to three days.
- Normal delivery within three to seven days.

Our developed profile reports feature comprehensive firmographic and credit information, including:

Report Features

- Operating address and contact details.
- Profile and history of the subject company.
- Company activities, products and services, operations, and industry classification with NACE code.
- Operational figures, and financial and banking information where possible.
- Registration information and date of establishment: registry and official information — name and location of official source, registry, tax authority and Chamber of Commerce.
- Ownership and management, with corporate linkages to parent, subsidiaries and sister companies where possible.
- Legal status and payment information.
- Credit rating and opinion, payment experience, and commentary.

Remarks	Credit text	Yes	No
News	News text	Yes	No

Harmonized, cross-border financial stability risk score and risk class

Experian has developed a harmonized financial stability risk score (1–100) that applies to all businesses, regardless of legal form and location. We created and enhanced a system that facilitates analysis of companies in both developed and emerging markets, such as Africa, South America, Asia and the Middle East, where financial statements often aren't available. This rating system allows you to make the proper credit assessment when examining prospective accounts.

In addition to the financial stability risk score, the risk dashboard has a risk class rating and a credit limit recommendation. These risk attributes are significant factors used to identify risky businesses when onboarding them into your portfolio.

Enhanced International Developed Profiles

Same-day report coverage
