Experian Access features overview

Experian Access provides Experian's clients with an easy-to-use, secure online environment, available 24-7 with no setup costs or special software or hardware installation required. This sophisticated, web-based portal provides access to essential credit management tools in one central, online location. All the accurate, critical data you need to make timely, informed decisions and fast approvals is just a click away. The features and benefits of this delivery option are included below:

Experian Access features

- User-friendly interface with tips and help content embedded in the application process to help clients with their report requests
- Batch processing to enable clients to send a multiple-record file to process multiple reports in one transaction
- Web-enabled user groups to introduce new products and provide client training; recorded and archived for reference anytime
- Delegated administration of users via Experian Web Access Control System (EWACS)
- Secured Socket Layer with 128-bit encryption
- No special hardware or software required; an Internet-ready PC with a standard 128-bit encryption browser is all that is necessary (Internet Explorer® 7+ or Firefox)
- Multiple user access to the File OneSM credit database

Experian Access benefits

- No additional cost
- Highly secure application
- Allows clients to manage their own users, including powerful usage reporting capabilities
- Available 24 hours a day, seven days a week
- Lower client training time and associated costs

Experian Access target clients

Experian Access is ideal for clients that want to access Experian's credit solutions via the Internet but do not have volume levels that require or justify dedicated or leased-line access. There is no additional hardware or software required beyond a standard CPU with a modem and Internet access. Experian Access is browser-based and is presented in a user-friendly Web application format. Typical industries using Experian Access are financial services, banking, automotive, collections, credit union, and telecommunications, energy and cable. Experian Access provides clients with an immediate view into the credit health of their customers.

Demo capability

Two methods are available for interacting with all available credit products: the Prefilled demo Method and STAR 2000 Interactive Test Database method. Additional information can be found on page 28 of this user guide.

Reporting

Usage reports that indicate product usage/time frame by individual user(s) and subcodes are available. Additional Information can be found on page 39 of this user guide.

Billing

If you have access to more than one subcode, it is critical that you are aware which subcode is to be used for which purpose. You are asked to select your subcode at the beginning of each inquiry or before you submit a batch file. If you are not sure which subcode to use, please ask your Security Designate. Selecting incorrect subcodes may cause billing errors.

Security

Experian®, together with our clients, manages extremely sensitive information requiring the strongest controls to ensure security, confidentiality and integrity.

- Experian Web Access Control System (EWACS)
 - Highly secure registration process
 - We also recommend that all clients setup IP address restrictions to protect access. Security Designates have the ability to set IP address restrictions for each individual user.
- We electronically scramble your information using SSL (secure socket layer) encryption — a widely trusted encryption standard.
- Adaptive authentication is an additional security system that is used to prevent unauthorized users from logging in. It's very simple to use and most users are already using this type of technology when using online banking.

User IDs and passwords

Users are not to share ID's and/or passwords for any reason Security Designates can provide you with new products and services, update your ID or reset your password. Both our security platform and the application itself are reviewed and audited by a third-party vendor. Security controls, procedures and policies are placed through a rigorous security assessment process.

First-time user login

Experian Access's URL: www.experian.com/access/login.html

By accessing the URL, first-time users will be prompted to:

1. Change their user ID (optional).
2. Verify e-mail address — this step is critical for password resets and future changes to the user's account.
3. Create your secret questions — the user must select 3 questions and provide the answers to each of the questions. If the user forgets his or her password and selects the Forgot Your Password? option, the system will utilize these secret questions to verify the identity of the user so they may continue with the login process.

Please update your account information

Account ID	sunilham
Email	<input type="text" value="sunilham.muthireddy@es"/>
Confirm Email	<input type="text" value="sunilham.muthireddy@es"/>
New Password	<input type="password"/>
Confirm Password	<input type="password"/>

In case you forget your credentials...

Question 1	What is your maternal grandmother's first name? <input type="text" value="bisen1"/>
Answer	<input type="text" value="bisen1"/>
Question 2	What was the first name of your first manager? <input type="text" value="bisen1"/>
Answer	<input type="text" value="bisen1"/>
Question 3	What was the name of the town your grandmother lived in? (Enter full name of town only) <input type="text" value="bisen1"/>
Answer	<input type="text" value="bisen1"/>

Terms and conditions

- a) Agree NOT to disclose your password or shared secret to any other person
- b) Agree NOT to order credit reports or other data from Experian's site except in the performance of your official duties for your company
- c) Agree NOT to attempt to test the limits of access to the Experian information provided, or execute or use any function which is not directly related to the performance of your specific job function
- d) Agree TO inform my security designate when my job function no longer requires access to Experian's systems
- e) Understand that I am responsible for transactions which take place under the user id I am issued and understand that accounts may be monitored by Experian.

Experian Access Help Center

The Experian Access Help Center provides links to recorded Web casts, a comprehensive library of frequently asked questions as well as links to user guides and product information.

Example:

Experian Access

FAQ's | Learn more about our products | Recorded training | Product guides

Experian Access Help Center

The Experian Access team is committed to provide the education and training that you need to enable quick and easy access to our products and solutions.

We have added the Experian Access Help Center to bring to the forefront all of our education and training tools. The below information is organized into three distinct sections: User Guides, Recorded Webinars and FAQ's.

Security

We have security measures in place to protect your information and identity:

- We electronically scramble your information using SSL (secure socket layer) encryption - a widely trusted encryption standard.
- All of the information you submit resides on our servers where only our software can access it.
- Our employees are trained in our strict privacy practices.

For more in-depth information, please read our [Privacy Policy](#)

Help content

Users requiring more information can utilize the Help links (questions marks located at the top right of each section) to display additional information contained in Help pages.

Product Overview

Collection and Locating Solutions

- **Address SearchSM** — Provides a comprehensive list of names and addresses associated with an input address.
- **Address Update** — Keeps you in touch with important customers by providing current addresses from Experian's nationwide, continuously updated database.
- **Collection Advantage** — Uniquely combines credit-based scoring, consumer contact information, and state-of-the-art analytical services into a single delivery platform for the collection industry.
- **Collection Report** — Provides current address information highlighting critical aspects of a debtor's situation pinpointing which debtors have the highest collection potential.
- **MetroNet[®]** — Maximize your collection and skip tracing efforts with MetroNet's comprehensive, accurate and up-to-date data on more than 140 million households and 19 million businesses.

Consumer Credit

- **Connect Check PlusSM** — Reduce financial losses due to identity fraud or risk exposure.
- **Credit Profile Report** — Produce an applicant's credit history instantly with the unsurpassed data precision and file coverage of Experian's File OneSM database.
- **Employment InsightSM** — An effective employment-screening tool providing Social Security number, address, previous employment history, public records and credit history.
- **Social Search** — Using Social Security number as the only input, helps you reach hard-to-find individuals who may have changed their names or moved without a forwarding address.

Consumer Credit solutions

- **BullseyeSM** — Provides a quick, easy and cost-effective way to review previously reported credit information.
- **Instant Update** — A tool to report derogatory information instantly.
- **Subscriber DecodeSM** — Provides the business name, address and telephone number of subscribers.

Custom Solutions

Experian Custom Solutions are for clients that are seeking the full power of Experian. These solutions tailor the Experian credit products and services to meet the specific needs of our clients.

Industry Solutions

- **Automotive Credit ProfileSM** — Customized for the automotive industry including an automotive profile summary.
- **Healthcare Credit ProfileSM** — Customized for the healthcare industry. It provides an immediate and accurate view of a patient's credit history.

Prospect Marketing

- **Instant Prescreen** — Real time prescreen program that allows clients to automatically pre-approve the consumer for credit products at the point-of-contact (POC).
- **iscreen** — Self-service, prescreen list fulfillment tool that enables small-to mid-tiered credit grantors (e.g., credit unions and regional banks) to order prescreened names through Experian's Experian Access.

Partner Services

- **Income ViewSM** — Tax verification service that provides clients with streamlined IRS 4506-T processing and prompt access to applicants' verified income via the Internal Revenue Service (IRS).
- **SmartBusinessReportsSM** — Allows you to immediately determine the financial health and automatically monitor changes to the financial profile of companies.

Ancillary Add-ons

Report Summary

- **Fraud ShieldSM** — Provides a comprehensive series of checks, searches and counters to screen every credit application; instantly recognizes warning signs and critical discrepancies, such as Social Security numbers recorded as deceased, non-issued or out of range.
- **Profile Summary** — Contains 17 significant calculations from the Credit Profile Report for quick credit history analysis.
- **Demographics Band** — Verify a consumer's identity and application information in seconds even if the individual has no prior credit history.
 - Telephone Numbers
 - Geography Codes
- **OFAC Name Matching Service**
 - OFAC Search Detail
 - Match/No Match Message

Creditor Contact Information

- **Direct CheckSM** — Helps financial institutions contact other credit grantors for fast information on a consumer in the following areas: collections, new accounts, fraud detection, skip locating and loan activity.
- **Credit Score Disclosure Exception Notices** — Provides the necessary disclosure information regarding credit score.
 - Residential Mortgage
 - General Finance

		<input type="checkbox"/> Personal Finance Model 3
		<input type="checkbox"/> Auto Loan Model 2
		<input type="checkbox"/> Auto Loan Model 3
		<input type="checkbox"/> Auto Loan Model 8
		<input type="checkbox"/> Bankcard Model 2
		<input type="checkbox"/> Bankcard Model 3
		<input type="checkbox"/> Bankcard Model 8
		<input type="checkbox"/> Bankruptcy Score

Up to five optional risk model Add-on products may be added to the inquiry.

Note: If the user's billing subcode is set to always return a specific risk model or ancillary product, it will be automatically returned with the report. If a risk model is chosen, this will override any existing subcode setting. To add a risk model, both the set risk model (based on your billing subcode) and the additional selection must be added. For example, if your billing subcode is set to receive the Scorex PLUSSM score and you wish to also receive or add the National Risk Model, both risk models must be added using the add-on feature. If you wish to override the Scorex PLUS score and receive the National Risk Model only, simply add just the National Risk Model. Contact Customer Support at 1 800 831 5614 for additional information on Customer Master settings.

Product demonstration

Users can demo products within the Experian Access application by utilizing two demonstration subcode options from the billing subcode drop-down menu. The STAR 2000 database test method allows users to enter any of the 250,000 test profiles into the interface in order to produce specific output results.

Additional Resources

Experian Access batch processing overview

Batch processing can process up to 5000 inquiries at once. Each Batch job will consist of one credit product and any additional risk models and ancillary products the user selects. In order to process a Batch request, the user provides a list of consumers in a .csv (Excel) file and uploads the file.

Home Tab/Batch Services

The Batch services section on the Home Tab also lists the most recent Batch jobs processed by the user.

Experian Products and Services

Experian AccessSM is a sophisticated new website that provides access to essential credit management tools in one central, online location. All the accurate, critical data you need to make timely, informed decisions and fast approvals is just a click away.

New Features

Recorded training sessions for the all new Experian Access are available.

- » [Experian Access User Training](#)
A complete overview of the new Experian Access website.
- » [Security Designate Training](#)
A training session for Security designates to learn how to manage and update your users.

Batch Processing Services

Experian Access provides batch processing for Experian credit products. In just [three easy steps](#), up to 5,000 credit inquiries can be processed at the same time.

Recent Batch Jobs

Required Fields by Product

The file must contain the correct required fields; the required fields vary by product:

Product	Required Fields
Credit Profile	Inquiry ID First name Last name Current address Zip code
Social Search	Inquiry ID Social Security
Address Search	Inquiry ID Current Address Zip code
Address Update	Inquiry ID First name Last name Current Address Zip code
Bullseye	Inquiry ID First name Last name Current address Zip code
Collection Report	Inquiry ID First name Last name Current Address Zip code
Connect Check	Inquiry ID First name Last name Social security Please see Connect Check Guidelines for more information
Connect Check Plus	Inquiry ID First name Last name Social security Current Address Zip code Please see Connect Check Guidelines for more information
Cross View	Inquiry ID First name Last name Social security Current Address City State Zip code
Employment Insight	Inquiry ID First name Last name Current Address City State Zip code
Healthcare Credit Profile	Inquiry ID First name Last name Current Address City State Zip code

Inquiry Screen

Click on the Upload a batch job checkbox.

Step 1: Inquiry Details Section

- a. Choose the appropriate Access Subcode from the drop down menu.
- b. Choose the 'Report Format'.
 - i. Enhanced
 - ii. Classic TTY

Step 2: Batch Services Section

- a. Enter in the 'Job Title'.
- b. Select the file for uploading by clicking on the 'Browse' button.
- c. Choose the appropriate 'File Format' by clicking on the radio button.
 - i. PDF
 - ii. HTML — printer-friendly (available for the Classic TTY report format only)
- d. Choose the appropriate 'Output Format' by clicking on the radio button.
 - i. Individual File — A ZIP file containing one large continuous HTML or PDF file named AllReports.PDF or AllReports.HTML
 - ii. Single Files — A ZIP file containing multiple .HTML or .PDF individual files. These individual files are identified/named with the Inquiry ID, last name, and first name. 1DOEJOHN.HTML or 1DOEJOHN.PDF.

Step 3: Ancillary Add-ons & Step 4: Risk Model Add-ons Sections

- a. Select additional Ancillary Add-ons and/or Risk Model Add-ons to be processed in the batch job.
- b. Please note that all selections will be applied to each consumer in the .csv file.

Click on Submit

The screenshot displays a web interface with two main sections:

- STEP 1: Inquiry Details**: Contains a "Billing Information" section with a dropdown menu for "Access Subcode" (selected: TCA1 5100023 COSTA MESA, CA) and a "Set as default" checkbox.
- STEP 2: Batch Services**: Contains two sub-sections:
 - Batch Services**: Includes a "Job Title" text field, an "Upload .CSV File" section with a "Browse..." button, and a checkbox for "File contains a column header row".
 - Batch Output Options**: Includes radio buttons for "File Format" (selected: PDF, options: PDF, HTML) and "Output Format" (selected: Individual Files, options: Individual Files, Single File).

Uploaded file validation

If the file cannot be validated, a preview pane and an error pane will display. The error pane will contain only the records that did not pass validation. The fields containing red text are invalid. Click the red fields to display the correct format for those fields. The **Submit** button will not display if any records are found to be invalid. Batch processing requires 100 percent validation in order to proceed to the next step.

Errors

1. ATTENTION: Validation has failed, please check your file and try uploading again. Please double check the Preview and Error panes for details.

Your batch request is being processed

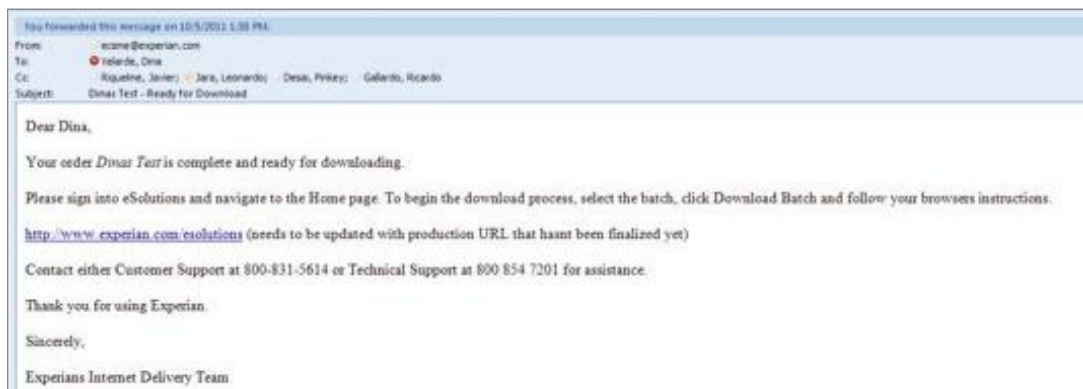

Once the Batch has been submitted successfully, a notification page will display, informing the user that he or she will receive an e-mail once the Batch job is complete and ready for download.

End user e-mail notification

The user will receive an e-mail (as shown below) once the Batch is ready for download.

Example:

Note: Batch files will be available for download for seven days from the date they are ready for download.

Download Batch Services

Once the email notification is received, navigate to the Batch Services section located on the Home Tab.

Experian Products and Services

Experian AccessSM is a sophisticated new website that provides access to essential credit management tools in one central, online location. All the accurate, critical data you need to make timely, informed decisions and fast approvals is just a click away.

New Features

Recorded training sessions for the all new Experian Access are available.

- » [Experian Access User Training](#)
A complete overview of the new Experian Access website.
- » [Security Designate Training](#)
A training session for Security designates to learn how to manage and update your users.

Batch Processing Services

Experian Access provides batch processing for Experian credit products. In just [three easy steps](#), up to 5,000 credit inquiries can be processed at the same time.

3. A copy of the individual report will pop up in the format that you chose.

Archives

Archive Inquires

Experian Access offers archive functionality, which allows users and Designates to store, retrieve and print previously accessed credit reports for up to three months. Designates have the ability to view all reports accessed for the subcodes they manage. By default, users have access to their own reports, but Designates may provide users with another level of access within the system that allows them to retrieve reports generated by all subcodes assigned to the user.

Archive Search and Usage Reporting

Please provide the information requested below. Fields marked with an asterisk (*) are required.

 **Starting March 3, 2012** the following changes will go into effect on Access Usage and Archive Reports.

- Usage Reports (high-level detail on transaction data) will provide up to one year of historical data
- Archive Reports (historical snapshots of reports) will be available for up to three months
