

Technical Providers (TP) List

Below is a list of Technical Providers that undergone an Experian Third Party Security assessment. Please note that this list only reflects Technical Provider’s completion of an Experian Third Party Security assessment and **does not speak to the Technical Provider status in meeting Experian legal / contractual requirements.**

Experian Third Party Security assessments are required when your company or your end users intend to use a TP’s web architecture to receive, store, process and / or deliver Experian information via the internet. An assessment is also required for any entity that takes receipt of Experian information on behalf of your company (e.g. Agent of End- User). If you or your end users would like to use a Technical Provider that is not currently listed, or if you have any questions, please contact the Experian Third Party Security team mailbox at tps.na@experian.com
