

# Supplier Diversity

Experian is committed to utilizing all types of business concerns, including minority, women and service-disabled veteran-owned business enterprises and certified small business concerns (M/W/DV BEs) to provide products and services. Experian is a member of both NMSDC (National Minority Supplier Development Council) and WBENC (Women's Business Enterprise National Council). Experian follows a strategic sourcing process that offers a level playing field to all suppliers. Experian will seek to utilize M/W/DV BEs to the maximum extent practicable, consistent with the Company's procurement policy, to seek out and acquire products and services, which best fit its business needs and requirements, regardless of source.
