Clear Fraud Attributes™ is designed for lenders who want to incorporate Clarity’s unique fraud and stability variables into their own statistical models.

In addition to fraud indicators and signatures, the solution features a stability score with reason codes. Overall consumer stability is one of the most predictive elements for fraud risk.

**Features**

- Clarity’s exclusive subprime data
- More than 200 predictive attributes for fraud detection
- Trended data to:
  - Analyze consistency of information provided by applicant over time
  - Determine the stability of information provided by the applicant
  - Link between the current application and past applications

**Benefits**

- Reduces fraud risk
- Aggregates activity across multiple lenders to detect fraud patterns more quickly
- FCRA-compliant product allows for automated decisioning
- Lenders can incorporate Clarity’s empirically derived data to develop their own models
