

# Contract Manager and Contract Analysis for Hospitals & Health Systems

Simplify contract management by letting us do the heavy lifting

Managing your payer contracts doesn't have to be time consuming or complicated. Experian Health has the expertise and resources to help you simplify the process and ensure you are reimbursed quickly and accurately.

## Contract Manager for hospitals and health systems

verifies contractually allowed amounts for all applicable claims, monitors payer compliance with contract terms, and models the financial implications of proposed contracts. Contract Manager's remote data processing and storage provides secure, 24/7 web-based access with no capital investments and no added cost for software or data updates.

Our companion solution **Contract Analysis** seamlessly integrates with Contract Manager to give you the data you need to know exactly how proposed contract terms will affect your bottom line—before signing on the dotted line.

## How we do it

- Defines your specific contract terms, fee schedules, carve-outs and payment policies within the system using a powerful multi-payer claims valuation engine so every claim is priced according to your terms
- Accurately adjudicates claims and compares expected payment to actual reimbursement
- Valuation is performed at the claim level, taking into account complicated rules such as complex stop-loss, case rates, carve-outs and multiple grouper methodologies including DRG-based reimbursement
- Identifies contractual appeal opportunities so you know which claims to appeal, and can efficiently and accurately file mass appeals when needed
- Monitors reimbursement without involving IT using a set of online dashboards and out-of-the-box reports, including an ad hoc report generator

***Contract Analysis, allows you to approach payer contract negotiations armed with data to boost reimbursement and avoid costly rule changes using your own claims history to run a variety of contract modeling scenarios.***
